## Main Construction Manager

### Employment and Training with the Giant Mine Remediation Project!

The Giant Mine Remediation Project (GMRP) has started and contractors might call you about hiring qualified Indigenous candidates to fulfill their Indigenous training and employment commitments. Contractors may need help in two main areas:

1. **Trainees or recent graduates** from career development programs your organization sponsors / delivers.
2. **Employment Agency services** like having a list of individuals seeking work and can be contacted by contractors who have positions to fill.

### AR1 Freeze Program Work Package

Parsons as the Main Construction Manager for the Giant Mine Remediation Project (GMRP) expects to issue a contract for the AR1 Freeze Program that includes at least this work:

1. Grubbing of stumps and roots followed by excavation of contaminated soils from the footprint of the AR1 Freeze Pad. This includes loading, hauling, and transportation of cleared/grubbed material, potential buried debris and contaminated soils to MCM approved locations on site.
2. Dewatering of ponded contaminated soil area, collecting contact water and disposing at the MCM approved location.
3. Rock excavation, utilizing drill and blast methods, to provide a flat subsurface for the future installation and maintenance of the freeze pipes by another contractor.
4. Load, haul, and stockpile the waste rock at the MCM approved locations on site for future processing by others.
5. Collection and containment of drainage (contact) water for sampling and analyses and transport for disposal in the MCM approved location (sampling and analyses will be done by other subcontractors).
6. Using granular material furnished by MCM, construct a working pad.
7. Supply and placement of geotextile.

The following labourers are needed to complete the work described above for the AR1 Freeze Program. If contractors don't have enough staff, they might contact you to hire qualified individuals for the jobs shown below.

## Please tell Parsons (Louie Azzolini at [louie.azzolini@parsons.com](mailto:louie.azzolini@parsons.com)) if your organization can provide prospective contractors the following?

1. The names and contact information of trainees and/or recent graduates from career development programs your organization sponsors / delivers that are seeking employment and could support the AR1 Freeze Program work.
2. The contact information of people looking for work and can be contacted by contractors who have positions to fill.

## Contracting Opportunities

<http://www.giantminerp.ca/contracting-opportunities>

Parsons MCM is dedicated to Indigenous training, employment, subcontracting and other opportunities involving Indigenous citizens and local area businesses in carrying out the work for this project through Indigenous Opportunities Consideration (IOC) and Procurement Strategy for Aboriginal Businesses (PSAB).

The MCM uses the Canadian Public Tenders website (<https://www.merx.com/>) to make it easy for you to: Find new opportunities. Bid on them. Win the business.

## Contact Us

Parsons MCM is committed to the wellbeing and prosperity of the local area community and all of its residents. Whether you are a contractor, a job seeker or a member of the public, you can reach us as follows with questions or inquiries.
