

WHATI CSP WELCOME PACKAGE

Hello and welcome to Public Safety Canada's (PSC) Aboriginal Community Safety Planning Initiative (ACSPI).

This process is currently under way in Whati and will help the community identify risks to community safety and develop their own Community Safety Plan, or what we refer to as a CSP, to address those risks.

The process is led by community members with guidance and support from Public Safety Canada officials and a team of Indigenous Facilitators. The group of community members that come together to meet and drive the process of creating a CSP are known as the Core Group.

OUR NORTH STAR

WHAT DOES WHATI COMMUNITY SAFETY LOOK LIKE IN 5 YEARS?

We are a close-knit community, supporting each other in our safety and wellness. Interacting with one another in a safe way, and we are safely connected to the outer world.

✓ EMERGING PRIORITY AREAS

- 1 Address the Safety Impacts of the All Season Road
- 2 Increase Employment in Safety Related Work
- 3 Improve and Expand Safety Infrastructure
- 4 Strengthen the Community's Commitments to Safety
- 5 Promote and Support Safe Lifestyle Choices

To date, the Whati Core Group has created a Vision for community safety (known in the CSP as the North Star) that will guide our CSP as well as some emerging Community Safety Priority Areas to help focus some of the actions and activities laid out in the plan.

If you are reading this, you are being asked to become a Core Group Member and join us in our future meetings to help us create this CSP.
